Connectivity Anywhere

Equipped with versatile I/O options, the ML500 Series can easily interface with industry-specific devices, making it perfect for integrating into existing environments or for powering a new project.

Demand Reliability

Combining functional, yet attractive, efficient designs with a fanless and ventless chassis, as well as our proprietary passive cooling solutions, Hardshell™ Fanless Technology increases the life and durability of our industrial computers.

Processing Powerhouse

Flexible configuration options allow the ML500 Series to utilize either Skylake or Kaby Lake Intel processors from Celeron to Core i7 and Xeon.
