

NUC. Evolved.

The IGN500 represents the next generation of small form factor industrial computing, packing Intel processing into our toughest ever NUC enclosure.

Compact Versatility

The IGN500 blends high-performance IPC engineering with Intel's NUC form factor, resulting in a computer as versatile as it is compact.

Smart Design, Smart Gateway

Long lifecycle components, high performance cooling, and a forward thinking approach to enclosure architecture make the IGN500 the ideal innovation platform.

Multi-screen Capable

Despite its diminutive size, the IGN500 Series offers a full range of I/O connectivity, including USB 3.0, Gb LAN, and dual high definition video ports.
