Function Meets Form

Designed to enable our fanless systems to be installed in your existing rackmount infrastructure, the MK020 Series lets you choose your ideal hardware solution.

Room to Grow

The unique design of the MK020 Series allows you to install two small form factor fanless systems side by side, enabling high performance, multi-board computing.

A More Reliable Rackmount

Passively cooled without the use of failure-prone fans, our fanless rackmount systems help ensure long lasting performance and reduce maintenance costs.
